Class Deviation RFO-2025-17

MEMORANDUM TO: Acquisition Management Division and Buyers in the Regions

FROM: Nicole Stevenson, Acting Director
Acquisition Management Division
Office of Administration

SUBJECT: FAR Class Deviation for FAR Part 17 in Support of Executive Order 14275 on Restoring Common Sense to Federal Procurement

Nicole Stevenson Signed by Stevenson, Nicole
on 11/18/25

- PURPOSE:** This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) Part 17 - "Special Contracting Methods" for purposes of implementing the Federal Acquisition Regulatory Council's (the Council's) model deviation text to FAR Part 17 to prioritize plain language, resulting in more direct, active, and accessible text. Notable changes include reorganization and streamlining of subparts into three topics: interagency agreements, multiyear contracts, and reverse actions. Section 17.000 – Scope of Part is retained and has been expanded to provide a more comprehensive list of special contracting methods. The subparts of Part 17 (17.1 – Multiyear Contracting; 17.2 – Options; 17.7 – Management and Operating Contracts; and 17.8 – Reverse Auctions) have been restructured to align each subpart with the stages of the acquisition lifecycle: (1) Presolicitation; (2) Evaluation and Award; and (3) Postaward. All existing clauses and provisions remain in place. However, provisions 52.217-4, Evaluation of Options Exercised at Time of Contract Award and 52.217-5, Evaluation of Options have been updated to reflect current cross-references. Clauses 52.217-8, Option to Extend Services and 52.217-9, Option to Extend Term of Contract remain unchanged and must still be completed by the acquisition team. Finally, the Subpart 17.8 requirements regarding reverse auctions have been streamlined, with content regarding best practices moved to the FAR Companion Guide.
- BACKGROUND:** [Executive Order \(E.O.\) 14275 on Restoring Common Sense to Federal Procurement](#) signed April 15, 2025, mandates a comprehensive review and simplification of the Federal Acquisition Regulation (FAR).

The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This

initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. SUMMARY OF CHANGES: FAR Part 17, Special Contracting Methods, has been streamlined. The revisions can be characterized by three overarching themes: organizing information in a way that's easier to understand and use; combining related topics and removing repeated information; and making the language clearer through simpler sentences, active voice, and better formatting.

Statutory requirements retained in the RFO FAR Part 17 model deviation include, but may not be limited to, the following:

- 41 U.S.C. § 3903 and 10 U.S.C. § 3501, Multiyear Contracts
- 31 U.S.C. § 1341, Limitations on Expending and Obligating Amounts
- 31 U.S.C. § 1535, The Economy Act
- Pub. L. 110-417 Sec. 865, Preventing Abuse of Interagency Contracts
- Pub. L. 110-181 Sec. 801, Internal Controls for Procurements on Behalf of the Department of Defense by Certain Non-defense Agencies
